

Editorial	Ralf Ludwig Spectroscopy, imaging and more	109
NMR	Hannah Busch, Thomas Wiegand Weak chemical interactions in catalysis probed by solid-state NMR spectroscopy	111
	Björn Corzilius Dynamic nuclear polarization: Metal-ion polarizing agents and site-specific enhancement	116
	Anne Strate Fast field cycling NMR relaxometry – Revealing molecular motion across different time scales	121
	Ralf Ludwig The long road from basic research to innovation: The example of NMR	125
yPC	Noah Al-Shamery yPC meets EYCN: Convocation of the Delegate Assembly 2026	130
Nachrichten	Personalalia, DBG-Veranstaltungen, Ausschreibungen	131
	Bunsen-Tagung 2027: Call for Abstracts	134
