## van 't Hoff-Prize 2022

The van 't Hoff Prize was established in 2008 by Gerhard Ertl in remembrance of the first Nobel Prize winner in chemistry Jacobus Henricus van 't Hoff. The award consists of a silver medal, a certificate and an amount of prize money. The award ceremony will take place at the opening event of the Bunsen-Tagung 2022 in Giessen.

The prize is awarded for outstanding and sustained contributions to the field of Physical Chemistry by an active, mid-career scientist, not older than 55 years of age. Suitable candidates of high international visibility in their research field will be evaluated with respect to scientific quality of their research. There are no restrictions on age, nationality or country of residence, but candidates should preferentially come from a German-speaking region in Europe.

Nominations for the van 't Hoff-Prize should be submitted as follows:

- a concise supporting statement which shows the candidate's scientific achievements and states the corresponding publications
- a CV of the candidate

Self-nominations are not eligible.

Nominations should be submitted **by 28<sup>th</sup> February 2022** to

Deutsche Bunsen-Gesellschaft für physikalische Chemie e. V., Geschäftsstelle,  
Dr. Elisabeth Kapatsina, [geschaefsstelle@bunsen.de](mailto:geschaefsstelle@bunsen.de).
